

Welcome!

Hello, and welcome to the third newsletter for the C-ENTRY project! Coming up in this issue, you will find:

- Update on our Infographics.
- News about our online meeting.
- Feedback from our transnational training activity!

Partners Meet Online:

Throughout the project, partners have been meeting online regularly to keep up to date with our tasks and to monitor the progress of the project.

At our latest online meeting in September, we were able to plan an exciting step in the project – the production and translation of our infographic resources into Romanian, Italian, Greek and Lithuanian.

Making these resources available in all languages will ensure that local participants will reap maximum benefit from the digital resources we have developed.

C-Entry Open Badges!

How do you acknowledge the learning that has been achieved when learning through innovative methods, like interactive infographics? This is something that the C-Entry partners have been wondering about. But thankfully now, we have a solution. Thanks to our team-work, we have been able to design 12 unique badges – one for each of the 12 topics in our interactive infographics! What do you have to do to gain one of these badges? Simply complete all of the challenges for one topic, and one of these badges could be yours!

Feedback from our transnational training activity!

In June 2023, some lucky young people and youth workers attended a transnational training event in beautiful Athens, where they were introduced to the C-Entry project, and asked to test our results so far and provide their feedback. Hosted by Aephoria Network, these participants were engaged in collaborative workshops to test the infographic resources and assess their suitability to raising their awareness of climate change topics. Aephoria also organised interesting study visits for our participants. Overall, this was a very positive experience, and thankfully all of our resources were positively evaluated! Based on the outcomes of this training, we have been able to finalise our infographic resources, which will soon be available online!
